

## **Integrated “TOYOBO REPORT 2021” released**

Toyobo Co., Ltd. has released its integrated report, “TOYOBO REPORT 2021.” It intelligibly introduces the Group’s process of value creation in accordance with the International Integrated Reporting Framework announced by the International Integrated Reporting Council, IIRC.

Contents of the report has been enhanced; it introduces the Group’s efforts in safety, disaster prevention and quality assurance to restore their trust. It also contains information on the group’s policy for strengthening human capital such as a reform of the personnel system and a promotion on women’s participation and advancement.

Toyobo will proactively use this report – which deals with its growth strategies for value creation and the outline of its business operations – in dialogues with stockholders, investors and other stakeholders to improve its corporate value.
